5/24/2009

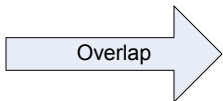

Use 1x4 lumber, 20 inches long.  
The actual dimension of a 1x4 is 0.5 inches thick by 3.5 inches wide.

Cross Section

1/2 inch

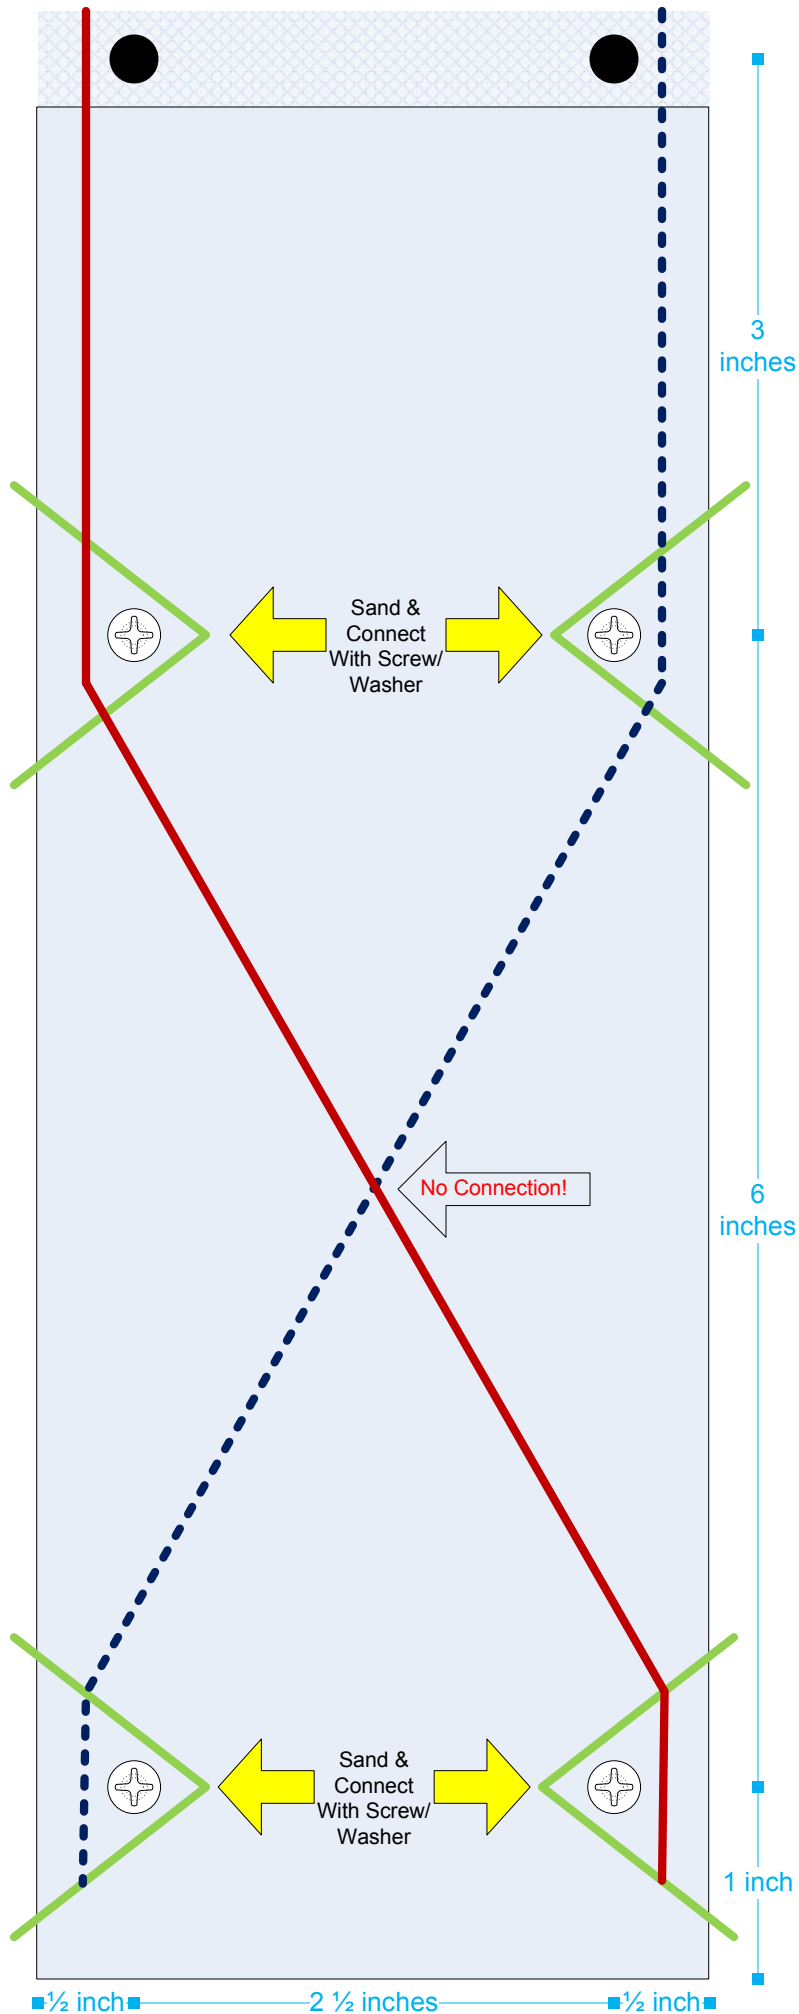

Center of Lumber

Print out both pages full-size on 8.5 x 11 inch standard US paper.

Align this page (2) behind the first page. Align the black dots behind the "screws" at the bottom of page 1. Tape the two pages together. The total length of the piece should be 20 inches.
